Journey and discovery form an important theme in the novel “Journey to the Center of the Earth” by Jules Verne. At the time that Verne was writing, great scientific discoveries were being made. New theories were being advanced or challenged –with many of them being noted in the novel. For example, the theory that the center of the earth is not actually composed of magma is challenged by the very idea of a journey to the center of the earth (though, as it is later revealed, the journey ...
