"Linguistic typology took off in its modern form with the ground-breaking research of Joseph Greenberg, such as, for example, his seminal paper on a cross-linguistic survey of word order leading to a series of implicational universals (Greenberg 1963). . . .

Greenberg also attempted to establish

SUMMARYThe book's contents are as follows. Chapter 1, the Introduction, provides a brief overview of the history of typology, how to read a gloss, and an explanation of the book's conventions and features. Chapter 2, 'Typology and universals', defines typology as "the study of structural differences and similarities between languages" (15).
