Intertek liquefied natural gas (LNG) tank calibration services provide accurate volume calibration of ship and shore-based LNG storage tanks. LNG vessel tank calibration: LNG vessel tank calibration is first conducted at the shipyard, prior to delivery. For LNG vessels already in service, recalibration of LNG vessel tanks are conducted at dry-dock or at lay berth. The vessels tanks are physically entered and measured to produce highly accurate tank volume tables to be used for LNG custody ...

### LNG Tank Calibration

The benefits of accurate tank calibration. In a world where business margins are shrinking, cost control in transaction of petroleum, LNG, LPG, chemicals and oils is very essential. While storing, transferring, blending or processing, strict consistency in volumetric measures is imperative.

### Storage Tank Calibration & Inspection :: International ...

Welcome to Vehicle Tank Meter Services LLC. VTM Services is the partner of choice for the calibration of your vehicle tank metering systems for propane, heating oil and aviation fuel applications. Our goal is to provide quick and accurate service at our shop or for even greater convenience at your location!

### Vehicle Tank Meter Services LLC - Propane, LPG Calibration

Tank Calibration Services. Tank calibration for shore and ship installations, terminals, and tank farms from our Total Quality Assurance experts. ... LPG, LNG, and other wet or dry bulk cargoes. ... cost effective tank and sphere calibrations. Using the latest laser theodolite technology for tank calibration, engineers and technicians are ...

### Tank Calibration Services - Intertek

TIW designs, engineers, fabricates and constructs high quality pressurized ambient and low-temperature spheres for liquid and gas storage in the Petrochemical/Refining, Chemical, and Wastewater & Biological Treatment industries. With more than 100 years of experience in the industry, we've served clients all across Canada and South America, constructing vessels in locations such as Guatemala ...
