Durrett Probability Solutions

1.1 Probability Spaces Here and throughout the book, terms being defined are set in boldface. We begin with the most basic quantity. A probability space is a triple (Ω, \mathcal{F}, P) where Ω is a set of "outcomes," \mathcal{F} is a set of "events," and $P : \mathcal{F} \rightarrow [0, 1]$ is a function that assigns probabilities to events. We

I used Durrett for my undergraduate Probability & Stochastic Processes course at UBC. The writing style is clear and the proofs are neat. It's my favorite probability textbook so far. I would highly recommend it to any undergraduate specializing in Computer Science, Mathematics or Statistics.
