### Fritz Heider Philosopher And Psychologist

87) Fritz Heider was a wanderer, someone who liked to survey and take the measure of whatever he encountered. In his formative years, he was a wanderer in the geographical sense — hiking in his...

### (PDF) Fritz Heider: Philosopher and psychologist

Fritz Heider was an Austrian psychologist whose work was related to the Gestalt school. In 1958 he published The Psychology of Interpersonal Relations, which expanded upon his creations of balance theory and attribution theory. This book presents a wide-range analysis of the conceptual framework and the psychological processes that influence human social perception. It had taken 15 years to complete; before it was completed it had already circulated through a small group of social psychologists.
