mode) will also work. There should be a dial or arrows somewhere on your camera.

Shutter Speed Settings 101: The Ultimate Beginners Guide!

SHUTTER SPEED. The shutter speed is how fast the shutter opens and closes. If the shutter is open longer, more light is let into the camera. If it opens and closes really fast, less light is let in. If you have a wide open aperture, your shutter speed will need to be faster, because you're already letting a lot of light in the lens opening.
