Mozi Basic Writings
Mozi's emphasis on 'universal love' is his calling card, and fortunately about half of this book dives into that concept. The other half is laughable in today's terms (Explaining Ghosts and Against Music are two obvious chapters) - but still has an underpinning of why his followers were pitted against the Confucians.

Mozi: Basic Writings by Mozi
Mozi (fifth century B.C.) was an important political and social thinker and formidable rival of the Confucianists. He advocated universal love—his most important doctrine according to which all humankind should be loved and treated as one's kinfolk—honoring and making use of worthy men in government, and identifying with one's superior as a means of establishing uniform moral standards.

Mozi: Basic Writings / Edition 1 by Burton Watson ...
Mozi said: In ancient times, when mankind was first born and before there were any laws or government, it may be said that every man's view of things was different. One man had one view, two men had two views, ten men had ten views—the more men, the more views.

The Mozi, also called the Mojing or the Mohist canon, is an ancient Chinese text from the Warring States period that expounds the philosophy of Mohism. It propounds such Mohist ideas as impartiality, meritocratic governance, economic growth and aversion to ostentation, and is known for its plain and simple language. The chapters of the Mozi can be divided into several categories: a core group of 31 chapters, which contain the basic philosophic ideas of the Mohist school; several chapters on logi

Mozi (book) - Wikipedia
Most surprisingly, Mozi's universal love justified the militia composed of his followers. Mozi held that the small and weak were of equal standing with the large and strong, and that bullying (or invading) of the weak was unjust. He backed his notion of justice with arms, coming to the defense to small states when unjustly attacked by the larger.
