Roman Military Equipment From The Roman military personal equipment was produced in small numbers to established patterns, and it was used in an established manner. These standard patterns and uses were called the res militaris or disciplina. Its regular practice during the Roman Republic and Roman Empire led to military excellence and victory. The equipment gave the Romans a very distinct advantage over their barbarian enemies, especially so in the case of armour. This does not mean that every Roman soldier had better equipment

Roman military personal equipment - Wikipedia A go-to shelf reference for all things Roman military. Great introduction to the wide and deep body of knowledge that is Roman military equipment. Not a dry scholarly dissertation on artifacts, but a quite approachable book to identify the various kinds of helmets, swords, belts, spears, etc. covering the centuries of the "Roman period."
