This manual describes how to enable the TeamViewer Connector and initiate the remote assistance request to Intune-Managed devices. It also provides an overview of the various features provided by the integration.

TeamViewer User Guide for Intune

TeamViewer VPN is a one-to-one connection between two computers. TeamViewer will use a TeamViewer connection (handled as a remote connection) to establish a VPN with IP-addresses which are addicted to the involved TeamViewer IDs. The VPN service is not like your standard VPN, for example, Private Internet Access (PIA).
