Tobacco, Heather
Wipfli tells the
engaging story of the
FCTC, from its start as
an unlikely civil society
proposal to its
enactment in 178
countries as of June
2014. Wipfli also
reveals how
globalization offers anti-
tobacco advocates
significant cooperative
opportunities to share
knowledge and address
cross-border public
health problems.

Currently, approximately 5.4 million people die each year due to tobacco-related illnesses—a figure expected to increase to more than 8 million a year by 2030. An efficient and systematic surveillance mechanism to monitor the epidemic is one of the essential components of a comprehensive tobacco control
