I have a volvo D12 engine, truck is showing 90 psi of oil ...

Oil pressure to the rocker arm shaft can be increased by a solenoid valve (2) mounted on the control valve, from about 100 kPa (14.5 psi) while the engine is operating to over 200 kPa (29 psi) during compression braking. During engine operation, the force of the spring and oil pressure in the oil chamber hold the control valve plunger in balance.

Service Bulletin Volvo Trucks North America D Trucks

Volvo Truck North America recommends the use of Volvo's VDS-2 oil, severe duty or EO-N premium plus, in their VE D12 engines. A complete oil change would require 34 quarts. The oil is filtered by one bypass and two full flow oil filters while in use. Recommended oil change service intervals are at 12,000, 15,000 and 25,000 miles.
