WindMax Green Energy on wind-turbine.com

While the Windmax HY 400is not going to blow you away with the level of craftsmanship, it certainly is a good starting model. It features a five-blade designwith a maximum power output of 500W at 12 volts. Our research has shown that you might get as mush as 18 amps at wind speed of 6 meters per second. Not bad for an entry-level turbine.

Windmax HY 400 500W Wind Turbine Review | GLW Energy

Although the Windmax HY400 wind turbine only has a 500W generator, it still works like a charm. All in all, the Windmax is a great buy for first-time buyers who are looking for a mid-range model that's reliable and efficient. With black blades and a white rotor, the turbine is not the most stylish on the market.

6 Best Home Wind Turbines | 2020 Reviews (WINDMILL, Tumo-Int)

Windmax Home Wind Turbine. 2KW system is a low Torque, low wind system, rated 2000w at 20 mph, startup wind speed is 4.47 mph. Wind/Solar Hybrid Charge Controller is included to convert AC to DC. Charge controller can handle 2000w wind load and 600w solar load.

Cheap & Reliable Green Product: Windmax Home Wind Turbine

The wind turbine can generate up to 100A worth of energy for your batteries and it only requires wind speeds of 6.7mph in order to work at full capacity. The best part is that you can install this on your own thanks to the DIY installation kit.

15 Best Home Wind Turbines Reviewed (2020 Guide)

The Primus Air 40 Wind Turbine is among the best residential wind turbines for sale in the market, and that offers the following features to suit your energy needs. An advanced microprocessor technology ensures more exceptional performance, as well as high wind protection with no mechanical braking.

13 Best Home Wind Turbines 2020: Generate ... - Green Coast
